The Death of the Mistress of Lord Byron.

THE COUNTESS GUICCIOLI.

In reading of the death of this celebrated lady, which event is recorded in a dispatch from Rome, the mind instantly reverts to those palmy days of her beautiful and fascinating womanhood when she drew to her side and retained, until his death, the genius of Lord Byron. The Countess Guiccioli has been something more than a mere mistress; she has been a friend, a confidante, a companion, a coadjutor in the career of the poet. Her name has become historical and her death becomes a matter of general interest.

The Countess Guiccioli's family was a noble one. She was the daughter of the Count of Guiccioli, a member of the Roman nobility, and was born at Romagna in 1801. Her education was accomplished at a convent, and she was still a resident within its holy walls when a marriage of convenience was arranged for her by her father, in pursuance of a custom at that time in vogue in Italy, of betrothing a daughter to a nobleman of the continent. She was not consulted even in the arrangement of this match, and the husband who had been selected for her was the Count Guiccioli, of Ravenna, a rich man of some literary taste, and who had been the friend of Alfieri, the great Italian dramatist, and who had added to his literary pursuits the study of the law. This was the practical, uxorious person into whose keeping was consigned the beautiful, lively, romantic young woman who, at the age of eighteen, was taken from the convent's seclusion to assume the duties of a wife.

At the time of the marriage of Lord Byron, whose destiny was afterwards to be interwoven so closely with hers, was living in Venice, running the gamut of a wild licentiousness in that city of dissipation, which was then the center of the Venetian world. The Countess Guiccioli, who was herself a poetess, and who was then nineteen years of age, especially felt a warm attachment for the handsome, erratic genius whom chance had thrown in her way. From the first hour of their acquaintance she permitted the Countess to visit her, and she was not long in becoming the mistress of his secret. Her name was not mentioned in the scale of morality.
